SKILLS

Programming Languages	C#, JavaScript, Java, HTML/CSS
.NET Technologies	.NET Framework, .NET Core, ASP.NET, ASP.NET Core
Frontend Technologies	React.js, Next.js
Database & ORM	MySQL, Entity Framework, LINQ
Web Technologies	RESTful APIs, Web API, MVC Pattern
Development Tools	Visual Studio, Visual Studio Code, Git/GitHub, Postman
Specializations	Full Stack Development, Enterprise Applications, Database Design, API Development

WORK EXPERIENCE

FullStack Developer - MAKINUS Jul 2024 - Present

- Developed enterprise-level applications using .NET Core and ASP.NET for network installation automation and engineering processes
- Implemented data visualization solutions and backend services for real-time telemetry data processing using .NET technologies
- Collaborated with cross-functional teams to design and develop scalable web applications using .NET architecture patterns
- Contributed to system architecture planning and database design using Entity Framework and MySQL for optimal performance

Java Developer Intern - ICONIX SOFTWARE SOLUTION Apr 2023

- Gained hands-on experience in enterprise application development and object-oriented programming principles
- Worked on backend development projects focusing on database integration and API development
- Enhanced understanding of software development lifecycle and best practices in enterprise environments

PROJECTS

Enterprise CRUD Application [GitHub Repository](#)

Developed a comprehensive CRUD application generator using .NET technologies with Entity Framework integration. Features include automatic model generation, controller scaffolding, database migration support, and RESTful API creation. Implemented proper validation, error handling, and follows .NET best practices for enterprise applications.

Real-Time Chat Application [GitHub Repository](#)

Built a real-time messaging application using ASP.NET Core with SignalR for real-time communication. Implemented user authentication, message persistence using Entity Framework, and responsive UI with React.js frontend integration.

EDUCATION

2021 - 2024 Bachelor of Science in Computer Science at **Sadakathulla Appa College**, Tirunelveli, Tamil Nadu (CGPA: 7.9/10.0 — Grade: A+)
